

UNIT 5- THE COLD WAR

DAY 2

THE RED SCARE AND SPACE RACE

*Competition Can Bring Out the
Best and Worst of Us*

OBJECTIVES

- Understand why Communism made Americans nervous / scared
- Discuss McCarthyism
- Identify several important inventions from the “Space Race”
- *Terms:*
 - Containment
 - Truman Doctrine
 - Marshall Plan
 - McCarthyism
 - HUAC
 - Red Scare
 - Space Race
 - Cuban Missile Crisis

REMIND ME...

- What was decided at the Yalta Conference?
- What was the “Iron Curtain” and who did it separate?
- What’s the deal with NATO and the Warsaw Pact?
- Finally... WHY is communism such a big deal?

FOR YOUR CONTAINMENT

- *See, whether the fears of communist ideals being spread in America, or just the threat of more nations falling to Communism, America adopted a policy of containment*
 - Preventing the expansion of a hostile power
 - **During the Cold War, it meant** doing whatever necessary to prevent the spread of communism
 - *This led to a few policies...*

WHEN DREAMS COME TRUMAN

- **President Harry Truman issued the Truman Doctrine**
 - The U.S. would provide political, military and economic assistance to democratic nations under threat **from authoritarian forces.**
 - *In other words... who would we support, and against whom?*
- Well, this might not be a big deal, so long as no “democratic nations” face a threat from an “authoritarian” one, but then the U.S. also developed a plan to help Europe rebuild economically...

MISSION TO MARSHALL

- Truman's Secretary of State, George Marshall, also came up with a way to assist Europe, and indirectly increase our influence – The Marshall Plan
 - Provided economic assistance to countries in Europe devastated by war
 - They had to agree to certain terms – free markets, democratic elections, *etc.*
- *Is this fair?*
- *Is this wise?*

WESTERN EUROPE'S RECOVERY

AGRICULTURE

INDUSTRY

FOREIGN TRADE

FRIENDS IN JOE PLACES

- *Meanwhile, Americans who felt the “fear” of Communism, were manipulated and whipped into a fever and fear*
 - *Just like Election 2016*
- *This was especially true when a junior Senator from Wisconsin, named Joe McCarthy claimed that Communists had infiltrated the government*

JOSEPH MCCARTHY

- **McCarthyism**

- Plan to “root out” Communist influences in Government and Hollywood
- Trials and Accusations didn’t need evidence
- Many people were “blacklisted” (lost careers)
- *Often compared to the Salem Witch Trials*

BETTER RED THAN DEAD

- HUAC
 - House Un-American Activities Committee
 - Conducted investigations on “communists”
 - Asked about friendships, acquaintances, and asked others to name names.
 - *Included people like Walt Disney, Ronald Reagan, etc.*
 - This ushered in an era called
- The Red Scare
 - Time when propaganda and fear in America were focused on Communism
 - Allowed many governmental policies to spy and report

IT WALKS AMONG US

**JOIN HUAC NOW AND
HELP ROOT OUT COMMIES**

SHOWING OFF YOUR ARMS

- *While America worried about Communist influences, they also worried about the literal threat they posed, and a competition, of sorts, resulted.*
- *The Soviets were afraid of America's nuclear bomb, so rushed to develop their own.*
- *The next target for both nations became space, and then the moon, and beyond...*

GIVE ME SOME SPACE!

- **The Space Race**

- The competition between the Soviet Union and United States for dominance in spaceflight and weapons capabilities

- Led to several important advancements,
not JUST for military... (Just know 1 or 2)

- * **Microwaves** * **Cell Phones** * **Velcro**

- * **Smoke Detectors** * **Tennis Shoes**

- * **Satellites** * **Laptops**

- **The Soviets were first in space, America was the first to the moon**

space RACE

Space was a crucial arena for this rivalry. Before a watchful world, each side sought to demonstrate its superiority through impressive feats in rocketry and spaceflight. Secret satellites kept a wary eye on the adversary.

At the end of the Cold War, the United States and Russia agreed to build a space station and pursue other joint ventures in space. A contest that began in fear and enmity has become a partnership.

Some famous space race probes and missions include Sputnik 1, Explorer 1, Vostok 1, Mariner 2, Ranger 7, Luna 9, Apollo 8, and Apollo 11.

27 August

1962

Mariner 2

The first space probe to conduct a successful planetary encounter, passing Venus on 14 December and taking several scientific measurements.

??

196?

Ranger 7

The first space probe to conduct a successful planetary encounter, passing Venus on 14 December and taking several scientific measurements.

??

196?

Luna 9

The first space probe to conduct a successful planetary encounter, passing Venus on 14 December and taking several scientific measurements.

??

196?

Soyuz

The Soyuz succeeded the Voskhod spacecraft and was originally built as part of the Soviet Manned Lunar programme, in competition with the US Apollo programme.

??

196?

Gemini

The Gemini succeeded the Voskhod spacecraft and was originally built as part of the Soviet Manned Lunar programme, in competition with the US Apollo programme.

ROUND
3

12 April

1961

Vostok 1

First manned spaceflight in history. Yuri Gagarin becomes the first human to enter outer space, and completes a single orbit of the Earth.

The Space Race grew out of the Cold War between the United States and the Soviet Union, the most powerful nations after World War II. For a half-century, the two superpowers competed for primacy in a global struggle.

ROUND
4

5 May

1961

Freedom 7

First manned space mission of the United States. Astronaut Alan Shepard pilots a Project Mercury capsule in a 15 minute suborbital flight.

ROUND
2

31 January

1958

Explorer 1

First artificial satellite launched by the United States. This is the first spacecraft to detect the Van Allen radiation belt.

ROUND
1

4 October

1957

Sputnik 1

First artificial satellite to be put into Earth's orbit. This launch by the Soviet Union ignited the Space Race. A second Sputnik was launched in November 1957, carrying a dog named Laika. She died in orbit, most probably from overheating.

Apollo's goal was to land humans on Earth's moon. Apollo 8 was the first mission to leave Earth's orbit, circumnavigate the moon and return. Apollo 11 achieved the programme's goal, landing Neil Armstrong and Edwin Aldrin on the lunar surface on 20 July 1969. The final cost of Project Apollo was presented to congress as \$24.4 billion in 1973.

RUBIK'S CUBA

- One of the culminations of the “Space Race” (*and the closest the world has come to nuclear war*) happened when America built a military base in Turkey, and the Soviets responded near Alaska, and then we responded in Italy, and then they responded in Cuba...
 - *The X-Men weren't really there*

WHY YOU M.A.D. BRO?

- Cuban Missile Crisis

- 13 Day stand-off between America and Soviets over missiles in Cuba (and Italy and Turkey)

- Closest the world has come to nuclear conflict

- Resolved with Mutual Assured Destruction (M.A.D.)

(Meaning that either “superpower” could destroy the other, and that encourages neither to use nuclear weapons)

U.S. BLOCKADES CUBA, TELLS RUSS 'LAY OFF'

Will Sink Ships That Won't Halt

WASHINGTON (UPI)—The United States is ready to sign every Comprehensive Economic and Trade Agreement which involves no new obligations on the part of the United States, a Commerce spokesman said last night.

"We need the Comprehensive Economic and Trade Agreements, not only to open new markets, but also to help us compete more effectively against the rest of the world," he said.

President's Cuba Stand Far-Reaching

by **STEPHEN J. BROWNE**
Executive Director, National

FASTER/STILL FASTER: Kennedy's speech on Cuba is all the more timely and stirring because America's foreign involvement and foreign troops seemed to be in a bit of a lull. America's desire to fast-track space is

**Special
Analysis**

The American
tax system is
too complex and
inefficient and
needs to be
overhauled.

James J. Wallman told the
staff a "quantities of other
things" were required. "Other reforms
encompassed in the single act
of 'comprehensive reform.'" But
other single aspects in the
great reforms.

Southeast Gears To War Pace

MIAMI, Fla. (UPI)—Military boats in the Caribbean have been ordered to search for a U.S. Navy ship that was reported to have been shot down in the Gulf of Mexico. The ship was the USS *Liberty*, a Navy ship that was shot down in the Gulf of Mexico. The ship was the USS *Liberty*, a Navy ship that was shot down in the Gulf of Mexico. The ship was the USS *Liberty*, a Navy ship that was shot down in the Gulf of Mexico.

President Acts

Island's A-Missile Build-Up Cited

WASHINGTON (AP)—President Kennedy ordered a U.S. "seamstress" blockade of Cuba last night, saying the Soviets are sending Soviet Missiles. FBI Chief Warren says the U.S. is not sending missiles to Cuba.

Glenn's spouse is a gay, unmarried individual in the dependent status in which he disowned legal claims past Street Insurance in the company, although some benefits still are being paid to Glenn and Street is searching for a way to correct the situation.

Test of Homogeneity of Variances

Specialty development: this is identified as being very relevant (4) by 10 respondents (50%).

E.g. Acts To Back Speech

...to those persons who are not yet 18 years of age, the law requires that the person be accompanied by a parent or guardian. The law also requires that the person be accompanied by a parent or guardian if the person is a minor and is not a member of the armed forces of the United States.

AND SO

- WWII led to the “Cold War” between Communists and non, which led to fears on both sides
 - *Some justified, some probably not*
- Both sides wanted better weapons “just in case” which improved a lot of technology for everyone
- And, finally, we reached a point where either side firing could mean both sides losing
- *Next Week: What happens when a Cold War gets “warm”?*

OBJECTIVES

- Understand why Communism made Americans nervous / scared
- Discuss McCarthyism
- Identify several important inventions from the “Space Race”
- *Terms:*
 - Containment
 - Truman Doctrine
 - Marshall Plan
 - Joseph McCarthy
 - HUAC
 - Red Scare
 - Space Race
 - Cuban Missile Crisis
