There will be THREE key elements to this project and your final grade.

1. **Handout** – Having it filled out completely, accurately, and turned in on time.
Diagnosis, Causes, Symptoms, Treatment. pts.
2. **Powerpoint / Poster** – It is expected you will include at least three images and the Diagnosis, Causes, Symptoms, and Treatment. At a glance, people should be able to understand the key things you want them to. Better grades are given for those students who use images, video, sound, etc. to truly “show” us what the importance is of this. CHECK FOR SPELLING / GRAMMAR!
3. **Your Presentation** – On the day you present you are expected to be at school ☺ Also, to have some information you can share, not just reading your powerpoint or poster to us, but telling us why this topic is interesting to you. **If you have any objects, food, or posters to show or share, that will add to your points.**

ALL Powerpoints must be submitted BEFORE class (to avoid deductions) USING THE LINK ON THE CALENDAR (which is on Canvas AND my Website). Do NOT just “share” the file – it will NOT notify of that. SUBMIT USING THE LINK www.majorcurtis.com/psychcalendar

Abnormal Psychology – Final Topics List – Spring 2026

1. ? – *Flores*
2. ? – *Hargroder*
3. **ADHD** – *Devries / Love / Morrey*
